

Fall 2013 Schedule

All seminars @12:10 PM in the **Genetics/Biotech Auditorium**

Date	Speaker	Topic
Oct. 3, 2013	David Pagliarini, UW - Biochemistry	Regulation of mitochondrial metabolism by post-translational modifications
Oct. 10, 2013	Francisco Pelegri, UW - Genetics	Maternal inheritance of germ plasm components in the zebrafish
Oct. 17, 2013	Ravi Balejipalli, UW - Medicine	Caveolae and Cardiac Signaling
Oct. 24, 2013	Dan Greenspan, UW - CRB	In Vivo Functions of the BMP1-like Proteinases
Oct. 31, 2013	Leanne Jones, Salk Institute for Biological Studies	Age-related changes to stem cells and the stem cell niche
Nov. 7, 2013	John Denu, UW - Biomolecular Chemistry	Reversible Protein Acetylation Regulates Diverse Cellular Functions
Nov. 14, 2013	Cancelled	No seminar
Nov. 21, 2013	John Svaren, UW - Comparative Biosciences	Wrapping it Up: Transcriptional and Epigenetic Control of Nerve Myelination
Nov. 28, 2013		Thanksgiving - No seminar
Dec. 5, 2013	Cancelled	No seminar
