

# Spring 2012 Schedule

All seminars on Mondays@12:00 noon in 341 Bardeen

Date	Speaker	Topic
Feb. 6, 2012	<b>Xin Sun</b> , UW - Medical Genetics	Organ Specification and Morphogenesis: Decisions of the Mammalian Foregut <a href="#">[PDF]</a>
Feb. 13, 2012	<b>Patti Keely</b> , UW - CRB	Probing the interplay between ECM, metabolism and cell phenotype <a href="#">[PDF]</a>
Feb. 20, 2012	No seminar	Faculty meeting
Feb. 27, 2012	<b>Jon Audhya</b> , UW - Biomolecular Chemistry	Functional genomics approaches to define new components of the metazoan endomembrane system <a href="#">[PDF]</a>
Mar. 5, 2012	<b>Igor Slukvin</b> , UW - Pathology and Laboratory Medicine	Temporal specification of hematovascular progenitors from human pluripotent stem cells <a href="#">[PDF]</a>
Mar. 12, 2012	<b>Joe Kemnitz</b> , UW - CRB and Institute for Clinical and Translational Research	Some Things Old, Some Things New (With Opportunities for Collaboration) <a href="#">[PDF]</a>
Mar. 19, 2012	No seminar	Faculty meeting
Mar. 26, 2012	<b>Melissa Harrison</b> , UW - Biomolecular Chemistry	Driving global gene expression at the maternal-to-zygotic transition <a href="#">[PDF]</a>
Apr. 2, 2012	No seminar	Spring Break
Apr. 9, 2012	No seminar	Spring Break
Apr. 16, 2012	<b>Peter Nichol</b> , UW - Surgery	Using a Model of Intestinal Atresia to Define Mechanisms of Intestinal Regeneration <a href="#">[PDF]</a>
Apr. 23, 2012	No seminar	Faculty meeting
Apr. 30, 2012	<b>Richard Moss</b> , UW - CRB	Cardiac MyBP-C - a myosin accessory protein with regulatory roles in health and disease <a href="#">[PDF]</a>
May 7, 2012	<b>Erik Dent</b> , UW - Neuroscience	Going on a bender before maturing: An F-BAR protein actin' out <a href="#">[PDF]</a>
May 14, 2012	<b>Arash Bashirullah</b> , UW - College of Pharmacy	Genetic control of hormone action and cell death in Drosophila <a href="#">[PDF]</a>
